The aim of the program is to provide financial support for open-access publication of research papers by scholars affiliated at the Jagiellonian University in the most prestigious scientific journals within the scope of the BioS Priority Research Area (PRA)

Terms and conditions of funding of open-access (OA) scientific articles at BB&B Faculty:

Funding to cover the costs of OA publication of research articles is granted to outstanding contributions published in relation to the BioS PRA strategic topics (structural biology; 'omics' research and bioinformatics; cellular, system and translational biology; evolutionary biology and biodiversity research; biology of conflict and cooperation). The maximum amount of funding, including VAT, is PLN 20,000.

1. Funding is for research articles published in journals that meet two criteria:
    1) in the journal list published by the Polish Minister of Education and Science, **current as of the date of sending the paper for review or accepted for publication, the journal was assigned 200 or 140 points** (Ministerial List CURRENT as of the date of acceptance for publication or submission for review) and
    2) the impact factor, IF, places the journal in the **top 25% of journals in a given category or is equal to as of the date of acceptance for publication or submission for review** (see below). Attention! On the day of submitting the manuscript for review, the Author may send an email to the Committee members (oa-wbbib@uj.edu.pl) along with a link to the category page (Journal Citation Report: https://jcr.clarivate.com/jcr/browse-journals) where the journal meets the above condition, and a link to the page with the ministerial scoring, as well as screenshots documenting the fulfillment of the criteria. Only then, in the event of a decrease in the journal's ranking during the manuscript review period, will the application for funding be considered.
2. The funding is granted subject to the following conditions:
    a. unsuccessful application to the program "Wirtualna Biblioteka Nauki" (https://pod.uj.edu.pl/aktualnosci/-/journal_content/56_INSTANCE_0UHtoTaZwJZz/145563174/145754767) for financial support of OA – if there was an option to submit an application.
    b. the corresponding author (the co-corresponding author is treated as equivalent) is an employee or a student of WBBiB and at least 50% of the affiliations must relate to WBBiB. Additionally for publications with 140 points, is that also the first author is an employee or a student of WBBiB (co-first author is treated as equivalent) ,
    c. in the acknowledgements of article should be added: **The open-access publication has been supported by the Faculty of Biochemistry, Biophysics and Biotechnology under the Strategic Programme Excellence Initiative at Jagiellonian University in Krakow, Poland.**
    d. information on the final approval of the article for publication by the editor of the journal
3. To apply for funding, authors must complete the "Open Science BioS WBBiB Form" (http://forms.bio.edu.pl/view.php?id=27375). Enclosed with the application must be the copy of the article and editor's final decision.
4. The call for application is continuous until the budget for a given calendar year is finished. **The order in which papers are funded is determined by the date of the editor's final decision**.
5. The funding decision will be made within three working days to ensure proper processing of the payment.
6. The author who receives funding is obliged to fulfil the obligations indicated in § 9 of the Rules of Procedure of the "Open Access" Policy within the framework of the Strategic Programme Initiative of Excellence at the Jagiellonian University
